

Point.360 Audio-Visual Preservation Survey

Point.360 is pleased to announce that we have on site Audio-Visual Archivist, to help represent our services to museums, libraries, archives, corporations and individuals, who need help in preserving and digitizing motion picture and audio recording collections.

Point.360 is committed to helping all audio-visual content holders develop a solid plan for the long-term preservation of their audio-visual content as such we are offering the Audio-Visual Preservation Survey as a free service.

In addition, we can offer you the following services:

- Physical assessment of a collection (May include prioritization of preservation strategies)
- Media Reformatting Services – high resolution film, video, & audio scanning and digitizing.
- Grant development/consultation – Help locate funding sources for media preservation.
- Aid in identifying and developing fundable projects.
- Audio-Visual Preservation project management – Evaluate, recommend, guide, manage and fulfill media preservation projects.
